

At least one day before MAP Testing, students need to download the NWEA secure browser.

Follow these instructions:

1. Choose which secure browser you need (there is one for Mac and one for PC)
2. Double click on it
3. Press 'Download'
4. When it downloads, click on it to open it
5. Allow it to make changes to your device
6. Keep clicking 'Next' on the installation wizard, then click 'Install'
7. Tick the checkbox which says 'Launch NWEA Secure Testing Browser'
8. Click 'Finish'
9. NWEA will open
10. You should have the NWEA icon installed on your desktop
